

Example 1 – Burton Snowboards Partner Page

Part 1. Create Burton Snowboards Page

(see <http://www.genv.net/en-us/burton> to view final product)

Step 1
Click "Add Page"

Step 2
Click "Add Page"

Step 3
Insert body content (use html as necessary)

Step 4
Choose FULL HTML (default is filtered)

Step 5
Upload the image you want to embed, capture the URL generated by GenV.net, uncheck the "List" box if you don't want the image file to be listed on the page.

Step 6
Click Submit and capture the URL of the newly created page.

Step 7
Click "Partners"

HTML Tips

- #1 Use `` to embed images. Use `align="left"` or `align="right"` to make text wrap around the image.
- #2 `<h3>` turns "About the Girl Overboard Challenge" into a heading (changes font color and enlarges the text). `` makes the font bold.
- #3 To turn text into links, use `text`. Use `target="blank"` when you are directing to a page not on GenV.net.

 Youth Venture partners with local, regional, and national youth-serving organizations. As keys to success, Youth Venture's partners work to help engineer a cultural shift in the way society perceives young people and provide the necessary resources and support to empower young people as our social leaders. Youth Venture provides our Partners with the model, training and support to implement the Youth Venture opportunity. Youth Venture and our Partners collaborate to engage the youth, recruit, train and pair Allies (individuals who like working directly with young people), hold selection panels, provide seed money and offer ongoing support. For more information or to become a partner email info@youthventure.org.
