

Decision Making and Your Venture

Making the Right Choices

Use this worksheet to help decide which activities are the most interesting for you and your team and which are the most realistic. Write one possible project in each box. Beside each project box, write a couple of advantages of the activity (+), and a couple potential problems with the activity (-). Afterwards, weight the positive against the negative and decide if the activity is right for your team.

What does your Venture want to do? My Venture's goal is...

Potential Activity 1:

+
