

Youth Venture
Dream it. Do it.

▶ **What does Youth Venture do?**

Youth Venture invests in the ideas and capacity of young people (ages 12-20) to make a positive, lasting difference in their school, their community, or their world. Among the ways that Youth Venture empowers and invests in young people's ideas is by providing **start-up grants of up to \$1,000 per Venture team.**

▶ **What is a Youth Venture team?**

A Youth Venture consists simply of a team of two or more young people who develop an idea and a basic plan to launch a club, business, or other organization that uses their talents, energy, or interests in creating some kind of lasting, positive community impact. A Youth Venture can be almost anything a young person imagines!

▶ **How can you get involved?**

Go to **www.YouthVenture.org** to see what other young people are doing. When ready, the Youth Venture Action Plan is available for download. It serves as an application and guides you through the Youth Venture process.
